

Welcome to GradeSlam

What is GradeSlam?

GradeSlam is a website where students can message a tutor for homework help and have their essays reviewed.

**It's unlimited,
on-demand and
available 24/7
on any device**

How does it work?

Students chat with real tutors through instant messaging. They type out their questions, write them on the digital whiteboard, or upload them to the chat box as a file or photo.

Students have their essays reviewed by using the Essay Review feature. They upload their papers and receive feedback on their work within 24 hours.

Making life a little easier for parents because...

- ✔ It's available at no cost.
- ✔ GradeSlam tutors help students learn through instant messaging (every teenager's favorite way to communicate!)
- ✔ The service is available anytime, anywhere, with no appointment necessary.
- ✔ GradeSlam tutors NEVER give the answer. They identify where students are stuck and guide them to figure out solutions on their own.
- ✔ Teachers use session summaries to get a full picture of exactly what their students need help with.
